

Editorial

Dear readers,

This year, our international journal of maritime science and technology *Naše more* celebrates its 100th anniversary. The first issue of the journal *Naše more* was published in 1919. A short publishing period (only two years) was followed by a long interruption and it reappeared again in 1954. It has continually been published for 67 years now. It has been a very long and restless period. There are just a few specialized seafaring journals worldwide, published for such a long period and our publication may be considered to be both our maritime and cultural heritage.

We are happy to announce the International Conference - *Naše more* 2019, taking place in Dubrovnik, 17-18 October 2019. The Conference aims to bring together leading academic scientists, researchers, research scholars and practitioners to exchange and share their experiences and research results regarding all aspects of maritime science and technology. Authors are kindly encouraged to contribute to and help shape the conference through submissions and presentations of their research abstracts and papers. All submitted conference papers will be reviewed twice and published afterwards in conference proceedings. We are pleased to inform you that after the Conference (based on the decision made by the Scientific Committee and the Editor in Chief) the authors of the best presented papers will be invited to submit expanded and revised papers for further publication in journal *Naše more*. For more details visit: <http://www.nasemore.com/conference/>.

In the 2019 second issue the original scientific paper is written by the authors Muhamed Fočak, Subha Džafić and Damir Suljević titled *Electrolites and Heavy Metals in Coelomic Fluid of Sea Urchin, Arbacia lixula from Adriatic Sea: Biochemical Approach to Ecotoxicological Study*, Srećko Krile and Nikolai N. Maiorov titled *Work Analysis of Maritime Passenger Terminals for Particular Region Based on Circos Plot*.

The following paper is a preliminary communication written by the authors Dario Medić, Zvonimir Lušić and Rino Bošnjak titled *Comparative Analysis of the Maritime Venture Risk and the Cost of Averting a Fatality in the Republic of Croatia*. There are three scientific review articles. The first one is by the author Dejan Lovrinčević titled *The Development of a New Methodology for Automated Sounding Selection on Nautical Charts*, the second is authored by Leo Čampara, Merica Slišković and Gorana Jelić Mrčelić titled *Key Ballast Water Management Regulations With a View on Ballast Water Management Systems Type Approval Process* and the authors of the third are Marija Crnčević, Ana Bratoš Cetinić, Marijana Pečarević, Željka Rajković and Dominik Mihaljević titled *The Contribution of Scientific and Historical Data to the Conservation and Management of the Island of Lokrum Marine Area*.

As you know, the papers published in our journal are indexed in various citation databases. We have been a Scopus indexed journal for over 15 years now, while recently our journal entered a WoS Core Collection (ESCI) base. Our main goal is to be accepted for inclusion in the Science Citation Index Expanded (SCI-E), which depends solely on the quality of the published articles. Therefore, authors are invited to help us accomplish that goal by striving to improve the quality of their articles with the original and concise subject matter elaborated in their papers.

Besides our publisher, The University of Dubrovnik, the journal is considerably supported by The Ministry of Science, Education and Sport of the Republic of Croatia. In addition to the support provided by The Ministry and our Editor, our sponsors are especially important, *Atlanska plovidba* being our longest continuous sponsor. Recently, the Society of Friends of Dubrovnik Antiques, Tourist Board of the City of Dubrovnik, Dubrovnik-Neretva County, Dubrovnik Airport and others have become our partners.

We are especially grateful for all support and cooperation, and above all, for the constructive comments, suggestions and remarks that help us sail full speed ahead in future.

Yours sincerely,

Dragi čitatelji,

Ove godine naš međunarodni znanstveni časopis o pomorstvu i tehnologiji slavi svoju stotu godišnjicu od utemeljenja. Prvi je broj časopisa „Naše more“ bio objavljen 1919. godine. Kratkom razdoblju izlazenja (samo dvije godine) uslijedio je dug prekid, a ponovno se pojavio 1954. godine. Neprekidno izlazi 67 godina do danas, tijekom dugoga i nemirnog vremenskog razdoblja. Treba podsjetiti da je tek nekoliko pomorskih časopisa na svijetu koji se tiskaju u tako dugom razdoblju pa se naša publikacija može smatrati jednako pomorskim kao i kulturnim nasljeđem.

Sretni smo da najavljujemo Međunarodnu konferenciju *Naše more* 2019., koja će se održati u Dubrovniku od 17. do 18. listopada 2019. Konferencija ima za cilj okupiti vodeće akademske znanstvenike, istraživače i praktičare da razmijene svoja vlastita iskustva i rezultate istraživanja o svim aspektima pomorskih znanosti i tehnologije. Svi autori ljubazno su zamoljeni da pridolesu i pomognu u oblikovanju konferencije svojim priložima, sažetcima vlastitih istraživanja i člancima, te su srdačno pozvani da ih prezentiraju. Svi prilozima za Konferenciju dvaput će se recenzirati i objavit će se po njezinu završetku u obliku Zbornika. Drago nam je kako Vas možemo obavijestiti da će nakon Konferencije (temeljene na odluci Programskog odbora i Glavnog i odgovornog urednika) autori najboljih predstavljenih članaka biti zamoljeni da predaju proširene i revidirane referate radi daljnega objavljivanja u časopisu „Naše more“. Sve pojedinosti možete pronaći na <http://www.nasemore.com/conference/>.

U ovom drugom broju „Naše more“ 2019., imamo dva izvorna znanstvena rada. Prvi su napisali autori Muhamed Fočak, Subha Džafić i Damir Suljević, s naslovom *Electrolites and Heavy Metals in Coelomic Fluid of Sea Urchin, Arbacia lixula from Adriatic Sea: Biochemical Approach to Ecotoxicological Study*. Drugi članak je autora Srećko Krile i Nikolai N. Maiorov s naslovom *Work Analysis of Maritime Passenger Terminals for Particular Region Based on Circos Plot*.

Slijedi rad kategoriziran kao prethodno priopćenje autora Dario Medić, Zvonimir Lušić i Rino Bošnjak s naslovom *Comparative Analysis of the Maritime Venture Risk and the Cost of Averting a Fatality in the Republic of Croatia*. Zatim slijede tri rada kategorizirana kao pregledni. Prvi je od autora Dejan Lovrinčević s naslovom *The Development of a New Methodology for Automated Sounding Selection on Nautical Charts*, drugi je od autora Leo Čampara, Merica Slišković i Gorana Jelić Mrčelić s naslovom *Key Ballast Water Management Regulations With a View on Ballast Water Management Systems Type Approval Process* i treći rad je autora Marija Crnčević, Ana Bratoš Cetinić, Marijana Pečarević, Željka Rajković i Dominik Mihaljević s naslovom *The Contribution of Scientific and Historical Data to the Conservation and Management of the Island of Lokrum Marine Area*.

Kao što znate, članci objavljeni u našem časopisu indeksirani su u više baza podataka. Uvršteni smo u SCOPUS bazu već više od 15 godina, dok smo nedavno ušli i u WoS Core Collection (ESCI) bazu. Naš glavni cilj je biti uvršteni u Science Citation Index Expanded (SCI-E), što ovisi jedino o kvaliteti objavljenih radova. Zbog toga su autori pozvani da nam pomognu ostvariti taj cilj, trudeći se poboljšati kavalitetu svojih priloga s originalnim i konciznim pristupima koje će elaborirati u svojim člancima.

Uz našega izdavača, Sveučilišta u Dubrovniku, časopis znatno podržava Ministarstvo znanosti, obrazovanja i športa Republike Hrvatske. Uz Ministarstvo i našega izdavača, sponzori su posebice važni, među njima je *Atlanska plovidba d.d.*, kao najstariji. Nedavno su našim partnerima postali i Društvo prijatelja dubrovačke starine, Turistička zajednica Grada Dubrovnika, Dubrovačko-neretvanska županija, Zračna luka Dubrovnik i drugi.

Posebno smo zahvalni za svu potporu i suradnju, iznad svega, za konstruktivne komentare, sugestije i primjedbe koje nam pomažu broditi punom snagom naprijed u budućnost.

Srdačno Vaš,

Srećko Krile
Glavni urednik / Editor-in-Chief
