

CALL FOR PAPERS

NAŠE MORE – special issue 2024

CHALLENGES AND OPPORTUNITIES IN THE MANAGEMENT OF THE ADRIATIC SEA'S NATURAL RESOURCES

Dear Colleagues,

We are pleased to invite you to contribute to a special issue dedicated to addressing the "Challenges and Opportunities in the Management of the Adriatic Sea's Natural Resources." This issue aims to gather and share cutting-edge research, best practices, lessons learned, and general insights that support the sustainable use of the Adriatic Sea's natural resources.

The Adriatic Sea, its coasts and marine ecosystems, is under significant threat from increasing ecological pressures and the demands of the blue economy. Effective collaboration across all sectors, coupled with the application of scientific research, is crucial for the conservation and sustainable management of this vital region.

This special issue will also feature findings and scientific results from the 1st Scientific-Professional Conference dedicated to Aquaculture in the Adriatic Sea - Adriatic Mariculture, focused on two main topics: Innovations and Economic Trends in Mariculture, and Interactions between Mariculture and the Environment.

All participants from this conference, as well as researchers focused on the Adriatic Sea and the sustainable use of its natural resources, are invited to submit their papers for publication. Your contributions will play an important role in advancing our understanding and efforts toward preserving this valuable resource.

In addition to research articles, we welcome reviews, case studies, and position papers that highlight innovative approaches, interdisciplinary methodologies, and policy recommendations. By sharing diverse perspectives and solutions, we aim to foster a comprehensive dialogue that drives positive change.

Join us in this collaborative effort to address the pressing challenges and seize the opportunities to protect and sustain the natural wealth of the Adriatic Sea.

GUEST EDITORS:

Associate Prof. Marijana Pećarević, Department of Applied Ecology, University of Dubrovnik, Croatia

Associate Prof. Tomislav Šarić, Department of Ecology, Agronomy and Aquaculture, University of Zadar

MANUSCRIPT SUBMISSION INFORMATION:

The paper should be prepared according to the Instructions for authors <https://www.nasemore.com/instructions-for-authors/>. Manuscripts should be submitted to the address of the journal: nasemore@unidu.hr

Deadline for manuscript submission: **September 1, 2024**
